# MESSAGES

My heartfelt congratulations to the Institute of Electronics Engineers of the Philippines, -Kingdom of Saudi Arabia Central Region Chapter (IECEP-KSA-CRC) for organizing the 9<sup>th</sup> IECEP-KSA-CRC Midyear Convention. I admire the IECEP-KSA-CRC for its concern about the professional enhancement of its members. The fruits of our labor towards the provision of Continuing Professional Development (CPD) Programs for our Filipino Electronics Professionals are being appreciated and recognized.

The theme for this year, ***“Electronics Professionals: Next Generation Leaders in Expanding Opportunities for the Digital Economy”*** defines the important role that the Electronics Professionals play in this digital era. We must be equipped, competent and updated in all aspects of our profession for us to become good and effective leaders. Advancement of technology is anchored in the development of the Electronics discipline. Its applications cut across applied science other engineering discipline, medical and business profession. This expands our area of practice and hence greater opportunities awaits for electronics practitioners. In view of these, Electronics Professionals are therefore encouraged to specialize in any of the fields of electronics indicated in the Electronics Engineering Law (RA9292). This can be realized through the implementation of the CPD Operational Guidelines for the Electronics Engineering Profession.

Your attendance to this convention will not only enhance your capability as professionals in your chosen field of specialization, but it will also be a good venue for the sharing of best practices among peers. This is also an opportunity to foster camaraderie and to establish linkages and collaborations. We are one, hence we should think and act as one.

The Professional Regulatory Board of Electronics Engineering of the Professional Regulation Commission (PRC) is committed to support IECEP in this endeavor. Mabuhay and God bless us all!

Hon. ALNAR L. DETALLA, D.Sci-Math, PECE, ACPE, ASEAN-APEC Engr.  
Chairman  
Professional Regulatory Board of Electronics Engineering

As the globe actively transitions towards an integrated digital economy, the information and communications technology (ICT) sector is regarded as a key contributor of progressive growth and sustainable development. With this, the electronics profession stands at the forefront of significant milestones as the government embraces new innovative paradigms in ensuring the delivery of public services.

Industries related to telecommunications and broadcasting, information and operational technology, and electronics testing and manufacturing are identified as important economic drivers aimed at fostering a holistic approach in embracing a knowledge-based society.

The relevance then of the engineering practice is deeply rooted in the Fourth Industrial Revolution (FIRE), with Internet as the game-changer, transforming the way we do things. Today's dynamic society is powered by innovation and driven by knowledge.

As we celebrate the silver anniversary of Internet the Philippines, we also recognize the opportunities and challenges of other emerging technologies. While there had been numerous improvements and ongoing innovations in ICT, there still remains a huge part of the population that is not fully able to the benefits of ICT.

IECEP has been continuously working with the government to uplift the practice of our profession in addressing the challenge of bridging the digital divide. In the course of doing so, IECEP as the Accredited Professional Organization of Electronics Technicians (ECT), Electronics Engineers (ECE) and Professional Electronics Engineers (PECE) has been advocating for ICT reform in order to raise issues affecting our practice into national consciousness. After all, ours is the foundational profession that drives innovation and growth and that which fuels the digital economy.

Lest I forget, our role in building our home, the Philippines, is undeniable. Together, let us join hands as we leverage the waves of change.

With IECEP supporting major digital governance initiatives, the electronics engineering profession is a key driver in magnifying the economic potential and opportunities brought about by ICT. Congratulations for holding the 9th IECEP-KSA-CRC Mid-Year Convention. Salamat, Mabuhay, and Balik Kayo!

IMELDA WALCIEN, PECE  
National President

Institute of Electronics Engineers of the Philippines, Inc.

Dear Members,

As we hold our 9th Midyear Convention, I would like to thank everyone who have supported and contributed to the success of the activities for the past 2nd Quarter.

The month of April started with the 3rd Technical Seminar (TS) on Public Address System with our own Vice Governor—External Engr. Nelson Navarro, which were attended by electronics practitioners and members. The advance Level engineering program continued with the APEC Writeshop attended by PECEs and fellow engineers from Philippine Society of Mechanical engineers (PSME). I am also very proud for the 5- graduates who earned their bachelors degree in Electronics Engineering from the University of San Jose Recoletos, my Alma mater, they are the product of the chapter's

ETEEAP program. And of course, I salute to the 11 new PECE's who have successfully passed their oral interviews, as they will be taking their Oath of Professional during our Midyear convention. We also implemented the yearly Corporate Social Responsibility (CSR) programs such as the Adapt-A-School activity in our beneficiary school in Iligan City, with over a hundred students received Solar Lanterns and slippers thru the kind donation from our members.

As Chairman of PPO, I have led several activities such as the Team Building activity of all the professional organizations, and this was participated by our officers as well. The chapter also donated their Used Clothes to the PSME project,

May began with the Amateur Radio Orientation Seminar, the 4th Technical seminar for the year, was conducted by Engr. Jandee R. Bonifacio, a radio enthusiast, to almost 50-members signifying their interest to take the NTC amateur examinations soon here in Riyadh. The 1st Inter-Color Basketball League was successfully launched and organized with 5 participating teams include a guest team from the Fiber Optics class. The Yellow (Capacitor) Team emerged as Champions, and hopefully next year a 2nd conference will also be done.

Back in the Philippines, your chapter continued its involvement with the national organization thru the representation of our Past Governor Perry Camson during the 69th IECEP Midyear Convention in Iloilo City.

For June, we had our second CSR project, a joint undertaking by the ladies of Lourdes College High School Batch '84 from Cagayan de Oro City. This was done last June 8, just in time for the opening of classes, the project was named "Balik-Eskwela" Outreach Project where over a hundred school kids were given school supplies and were adapted/sponsored by our members. Our 5th Technical seminar was the in demand seminar on Fire Detection and Alarm System (FDAS) by our own Anever Binaoro. More than 50 members attend the event and we are proud to announce that a Cluster Course will be organized this coming August.

This Midyear convention will be highlighted by the Oath Taking ceremonies of our new 9 PECE's; and a couple of seminars planned - the 6th TS on Video Management System (IP based Camera System) by Virgilio E. Faminial, Jr. and the 7th TS on Synchronization by Engr. Ulyses H. Pacarro, Jr.

Lastly, I would like to thank our sponsors—Al Raheema Medical Center, Jollibee and Philippine Airlines for supporting this Midyear convention.

# MYC - TECHNICAL SEMINAR SPEAKER'S PROFILE

**VIRGILIO E. FAMINIAL, JR.**

**Topic: Video Management System**

(IP Based Camera System)

Ver holds a Bachelor's degree in Computer Engineering from AMA Computer College-Makati. An experienced Network Engineer with more than 15-years working experience in his field of Information and Communications Technology. His expertise is on Security Systems and Data Communications.

He works with Qudra Networks and Security as a Site Engineer in Saudia Arabia since 2013.

A Certified Professional of AXIS Communications, a leading company in IP Based Camera and Video Management System. Also, he is a Certified Integrator of Genetic Security Center, a canadian company and vendor in IP based Video Surveillance System.

Currently he shares his time and knowledge as a volunteer instructor/lecturer of various technical courses to fellow overseas filipino worker.

**ULYSSES H. PACARRO, JR.**

**Topic: Synchronization**

Uly is the Engineering & Technical Solution Manager in Al Baraah Telecoms Co. Ltd., a telecommunications equipment and service provider company. With more than 25-years working experience in Saudi Arabia as a Technical Manager, an Implementation Engineer with expertise in Advance Digital Switching, and Operations & Maintenance Engineer in telecommunications. He is also knowledgeable in VHF/UHF/RF—Radio Communications when he was working for 8-years with the Naval Intelligence and Security Force.

He earned his Bachelor's degree in Aviations Electronics Engineering at the Philippine State College of Aeronautics in 1990 and studied Electronics Servicemen in Radio Receiver from the Samson Institute of Technology in 1984.

He is currently pursuing his ASEAN Engineering Registry with the Philippine Technological Council (PTC) as an ASEAN Engineer thru the Advanced Level Engineering program of IECEP-KSA-CRC.

## COMPLETED TECHNICAL SEMINARS - Q2

The 3rd Technical Seminar on **PUBLIC ADDRESS SYSTEM** was conducted last April 5, 2019 at the 63 Hotel Suites, Riyadh, KSA. The technical speaker was **Engr. Nelson M. Navarro**, the current Vice Governor External who has more than 30-years of work experience in various sectors in academic institutions and Electronic Security Industry. Around 38 electronics practitioners attended the seminar. 4-CPD credit units was approved.

**AMATEUR RADIO SEMINAR ORIENTATION** last May 3, 2019 was delivered by a licensed Class A Amateur Radio Operator, **Engr. Jandee R. Bonifacio**. After the seminar, nearly 50-participants were interested to take the Amateur Radio Licensure examinations planned this coming December 2019 in Riyadh, KSA. This was the 4th technical seminar with approved 4- CPD credit units. Due to public demand, a second Amateur Radio Orientation Seminar was done last June 21, 2019 at the POLO—FREE Registration.

After last year's successful cluster course, the **FIRE DETECTION & ALARM SYSTEM (FDAS)** seminar was conducted last June 14, 2019 by **Mr. Anever Binaoro**. About 53 electronics technicians and engineers were updated on the latest 2019 version of the NFPA 72. 4-CPD credit units was approved for this 5th technical seminar of the year.

# Advance Level Engineering News and Updates

## ASEAN Engineer Register and Technician Writershop Batch 2

April 2019—Advance Level Engineering (ALE) Committee of IECEP-KSA-CRC led by Engr. Emmanuel Yumul and Engr. Jonathan Deo Aquino initiated the 2nd batch—Writershop for ASEAN Engineers and Technicians last April 12, 2019 in Philippine Overseas Labor Office, Riyadh. This writershop focused on Technicians and Technologist who has specializations on their respected field.

## Filipino Engineers holding ACPE ID's may now use the ASEAN/Diplomatic Lanes.

June 2019—Office of ASEAN Affairs under the Department of Foreign Affairs (DFA-ASEAN) released an official notice granting the request to utilized ASEAN/Diplomatic Lanes at the Immigration Area of the Philippine Airports during arrival and departure to Filipino Engineers holding an ID of ASEAN Chartered Professional Engineer. The notice was signed by DFA Assistant Secretary Junever M. Mahilum-West, and was forwarded to Professional Regulation Commission thru Commissioner Yolanda D. Reyes.

# APEC Engineering

April 2019—APEC Engineer Writeshop was held last April 5, 2019 in 63 Hotel Suites, Olaya Riyadh.

The event was spearheaded by ALE Committee Head Engr. Emmanuel Yumul and Engr. Jonathan Deo Aquino with BOD 2019.

The participants comes from different field of specialization of Electronics Engineering with guest aspirants from Philippine Society of Mechanical Engineers - Central Region Saudi Arabia (PSME-CRSA).

*April 2019 PECE Passers with BECE (mid) after the Technical Evaluation.*

*(L-R) Lemuel Lasap, Gabriel Boyose, Rico Del Moro, Dr. Alnar Detalla, Hermio Orbe, Rayant Serrana, Michael Bantillo and one aspirant in Bahrain.*

*June 2019 PECE aspirants with BECE (mid) after the Technical Evaluation. IECEP-KSA-CRC hopes all of the aspirants pass with flying colors. Best of luck.*

## Congratulations to New Professional Electronics Engineers (PECE)

April 2019, Manila - IECEP-KSA-CRC congratulates successful examinees who passed the Technical Evaluation for Upgrading as Professional Electronics Engineer.

1. Michael B. Bantillo, PECE
2. Michael B. Bascuguin, PECE
3. Gabriel M. Boyose, PECE
4. Gilbert Garcia, PECE
5. Jessie Flor V. Genetiano, PECE
6. Ferdinand U. Giron, PECE
7. Lemuel T. Lasap, PECE
8. Christian Edward C. Laurente, PECE
9. Oliver L. Magat, PECE
10. Ehrnan G. Salibay, PECE
11. Rayant N. Serrana, PECE

IECEP-KSA-CRC is truly proud of you.

IECEP-KSA-CRC 2019 SPLE Committee successfully conducted the Pre-board examinations, last June 6 & 7, 2019. The students took the first 2 subjects during the Eid Holiday, Mathematics (20%), & Electronics (30%), then followed by General Engineering & Applied Sciences (20%) Electronics Systems & Technologies (30%) the next day. The objective of the Pre-board is for the students to experience the test in an environment similar to the actual examination.

Board exams are an important milestone in our life because it is the stepping stone for our career. It is these pre-board exams that became very crucial in helping the students gauge their performance on the actual exam scenario. It is also a form of preparation that accumulates their consistent learning and progress during months of review.

# Expanded Tertiary Education Accreditation Program

ETEEAP is a comprehensive educational assessment program of the Commission on Higher Education (CHED) at the tertiary level that recognizes, accredits and gives equivalencies to knowledge, skills, attitudes and values gained by individuals from relevant work.

This is a program advocated by IECEP-KSA-CRC to its members who had not completed the tertiary level or had underprivileged opportunity to finish their baccalaureate degree in Electronics and Communication Engineering.

IECEP-KSA-CRC collaborates with University of San Jose – Recoletos (USJ-R) of Cebu, to promote such program to fellow Overseas Filipino Worker (OFW) in Saudi Arabia.

## REQUIREMENTS:

- Beneficiaries must be Filipinos who are at least high school graduates.
- Must have worked for at least five years in the field or industry related to the academic program they are obtaining an equivalency
- Must also be able to show proof of proficiency, capability and thorough knowledge in the field applied for equivalency .
- Valid IECEP membership

For more details contact:

Arnold Silvestre C. Salcedo  
Director—ETEEAP Coordinator  
IECEP-KSA-CRC

## New Baccalaureates of ETEEAP for BSECE course at USJ-R Cebu from IECEP KSA CRC

Proud and Enthusiastic are the members of IECEP KSA CRC as they attended the commencement exercises at University of San Jose – Recoletos, Cebu last April 27,2019 held in Basak Campus. We have five (5) new graduates of BSECE under the school's Extended Tertiary Education Equivalency Accreditation Program (ETEEAP).

The new baccalaureates are as follows:

1. Rheojhun O. Ambegua
2. Christian B. Endozo
3. Romano B. Pagdanganan
4. Francisco L. Ponce
5. Ian I. Soliminiano

They completed their academics and their project studies as the requirements which qualified them in the roster of new BSECEs in the same school.

# Education Equivalency and n (ETEEAP)

## Congratulations to 2019 ETEEAP Graduates

Francisco L. Ponce

Romano B.  
Pagdanganan

Christian B. Endozo

Ian I. Soliminiano

Rheojhun O.  
Ambeguia

## New Batch of ETEEAP Aspirants for BSECE Admitted at University of San Jose-Recoletos, USJ-R

IECEP-KSA-CRC members were admitted in ETEEAP for BSECE course at University of San Jose-Recoletos (USJ-R), Cebu.

Out of the nineteen (19) aspirants who submitted their requirements, Sixteen(16) passed their assessment. Fourteen (14) of the aspirants present in Riyadh were interviewed by the USJR panel through skype video call collectively last June 21, Friday at POLO-OWWA Riyadh. The other two were on vacation and was interviewed separately through skype video call and through phone patch.

(Top) USJ-R Panel composed of Dr. Adela Catipay USJR-ETEEAP Director, Eng. Anthony Jagures PECE Electronics Engineering Faculty Expert, Eng. ## IECEP-KSA-CRC Spearheads 2019 PPO Team

April 26, 2019, a team building activity with a theme entitled PPO-CRSA: Building A Cohesive Team -Unity in Diversity had been spearheaded by IECEP-KSA-CRC through the partnership of the Philippine Institute of Certified Public Accountants (PICPA) – Riyadh Chapter.

## Clothes Donation

### Joint Collaboration with PSME-CRSA

Riyadh, April 12, 2019. In the beginning of the second quarter of 2019, IECEP-KSA-CRC had collaborated with Philippine Society of Mechanical Engineers – Central Region Saudi Arabia (PSME-CRSA) on the donation of used clothing intended for the victims of calamities and disasters which happened recently in our country.

It was indeed a great action of both organizations to extend care and love for our “kababayans”.

Furthermore, such act of kindness and generosity will always be a blessing to all of us.

## KALAYAAN 2019: IECEP Partakes in the celebration of 121st Philippine Independence

Riyadh – In celebration of the 121st Philippine Independence Day, IECEP-KSA-CRC’s President and Vice President – External, Engr. Artemio Dy and Engr. Nelson Navarro, respectively had attended the dinner celebration at Marriott Hotel, Diplomatic Quarters, Riyadh, Kingdom of Saudi Arabia on June 14, 2019.

This event had been organized by Philippine Embassy headed by Ambassador, His Excellency, Hon. Adnan V. Alonto and other dignitaries

from different sectors of the Philippine Mission under the Department of Foreign Affairs (DFA) and Philippine Overseas Labor Office – Overseas Workers Welfare Administration (POLO-OWWA) represented by its Labor Attache’, Hon. Nasser Mustafa.

# CRC on the Move

## Joint Collaboration with Global PCR

Riyadh, June 2019 - IECEP KSA CRC successfully collaborated with PNP's Global Police Community Relations (Global PCR) in promoting the Electronics Profession as well as to seek partnership for future activities and events of the organization.

Engr. Emmanuel R. Yumul, 2016 Governor, spearheaded the said activity by visiting the Global PCR office in Camp Crame and discussed the mission, vision and projects of IECEP KSA CRC for fellow OFW.

Part of the visit is to have a meeting with Police Brigadier General Rhodel O. Sermonia, to discuss how both parties can help each other in support to our "kababayans" abroad.

Global PCR aim to address specific concerns of Filipinos abroad and those which affect their families in the Philippines in terms of security, public safety, and peace and order, thereby giving them peace of mind. Winning the hearts and minds of Overseas Filipinos is crucial in harnessing their potentials in providing relevant and vital information that may be critical to law enforcement.

## 69th IECEP National Midyear Convention

Iloilo City, May 2019 - IECEP KSA CRC participates in the 69th Midyear Convention of IECEP National in Iloilo City.

Engr. Perry H. Camson, 2018 MOECE, represented the chapter and actively participated with the National Directors and members.

In the photo is Engr. Perry with National VP-Education Dr. Mishell Lawas, National BOD Gerhard Tan and other Chapter Governors.

# IECEP Inter-color Basketball League

Date : April 20, 2019 - Saturday

Time : 7:30 am

Venue :

IECEP-KSA-CRC launched the first inter-color basketball league which was held from April 20 up to May 12 2019 at the Al Sharj Hotel basketball courts. One of the main objective of the activity is to foster team building and camaraderie among members and officers. Moreover, the event serve as the try-out to select the best players to represent the organization for the upcoming 2019 PPO Basketball League.

There were 5 teams who joined the tournament and were present during the activity namely the Black Team (Resistors), the Red Team (Transistors), the Yellow Team (Capacitors), the Blue Team (Diodes) and guest Gold team (Fiber optics).

Due to the positive feedback and great outcome from the participants, IECEP-KSA-CRC plans to continue the activity annually in order to attract more members to participate.

Special thanks to Al Raheema Medical Center as one of the sponsor of the event.

L-R: Mythical Five Best Center - Engr. Justin Te & Finals MVP: Engr. Aquilino Delfin Jr.

Winners of the Inter-Color Basketball tournament:

- Champion:** Capacitor (Yellow Team)
- First Runner Up:** Diodes (Blue Team)
- Second Runner Up:** Transistor (Red Team)
- Third Runner Up:** Fiber Optics (Gold team)
- Fourth Runner Up:** Resistors (Black Team)

Finals MVP: Engr. Aquilino Delfin Jr.

Conference MVP: Kelvin Reyes

Mythical Five:

Best Center - Engr. Justin Te

Best Power Forward - Arnold Magbaul

Best Shooting Guard- Engr. Rigel Pelayo

Best Point Guard - Kelvin Reyes

Best Small Forward- Joseph Parba

*Awarding of Medals to the Champion:*

*Capacitor (Yellow Team) with Engr. Vinz lao, and IECEP BOD'S*

*Conference MVP: Kelvin Reyes Capacitor (Yellow Team) with Engr. Tim Dy, and IECEP BOD'S*

*Representatives of Al Raheema Medical Center led by Ma'am Aishah Renet Suicano-Novisteros (Center) with Chapter Gov. Tim Dy.*

(Project Initiated by Chapter Director Brian D. Lacaba)

### ADOPT A SCHOOL PROJECT:

**Iligan City, April 2019.** This year the chapter distributed Solar Lanterns/Flashlights and Slippers to the school children of **Binasan Elementary School in Iligan City**. The donations came from our kindhearted members and sharing what they have to more deserving students.

## CORPORATE SOCIAL RESPONSIBILITY (CSR) PROJECTS

- *Balik-Eskwela: Packing of school supplies for the 100 - Student School Children*

# IECEP-KSA-CRC and Lourdes College HS-Batch '84

## BALIK ESKWELA OUTREACH PROJECT

When: 8<sup>th</sup> June, 2019  
Where: Gango, Libona, Bukidnon

**Bukidnon, June 2019** | Gango Small Mining Area is situated in Sitio Manlauyan in Barangay Gango, Libona Town in Bukidnon. When the Department of Environment and Natural Resources ordered the closure of all mining activities, families have been displaced and focused more on surviving their basic, daily needs like food. It is just but timely that IECEP KSA CRC has extended their generosity to the needy students in collaboration with Lourdes College Batch 84. A distribution of 100 school bags with school supplies was done in the presence of the members of the Barangay Officials, Parents and teachers. Games, Snacks, fun and surprises were included in the day's line up of

activities.

- Thank You Banner from the students marked

- Ladies from LCHS -Batch

- School Children with their "Smile" of gratitude. PRICELESS !

# Project Gabay

## DONATION OF PHILIPPINE ELECTRONICS CODE BOOKS TO COLLEGES AND UNIVERSITIES

IECEP-KSA-CRC continues its campaign and promote the Philippine Electronics Code (PEC) by donating PEC books to selected universities and colleges. 12 colleges and universities has already received the PEC Book. This year, 3 more universities has been added as the recipient of the books.

Facilitator: Jonathan Deo Aquino, PECE

### Saint Mary University

Bayongbong Nueva Viscaya

18 March 2019

Received by:

Dean Dr. Teresita L. Reyes

School of Engineering, Architecture and Information Technology

### Nueva Vizcaya State University

Bambang, Nueva Vizcaya

Received by:

Engr. Zarah Z. Villar

Department Chair of BSECE

### ICCT Colleges,

Salcedo IECEP Facilitator, Ms. Rosario G. Noriel-Campus Librarian, Prof. Edmundo G. Frias-Head Extension Services, Engr. Lawrence Y. de Guzman -Head Engineering Dept.

## OATH OF PROFESSIONAL

I, \_\_\_\_\_ of \_\_\_\_\_, hereby solemnly swear that I will support and defend the Constitution of the Republic of the Philippines; that I will bear true faith and allegiance to the same; that I will obey the laws, legal orders, and decrees promulgated by the duly constituted authorities of the Republic of the Philippines; and that I impose this obligation upon myself voluntarily, without mental reservation or purpose of evasion.

I further solemnly swear that at all times and places I will adhere closely to the ethical and professional rules generally accepted by the Professional Electronics Engineering profession in the Philippines, and I will well and faithfully discharge to the best of my ability the duties and obligations incumbent upon a legally authorized Professional Electronics Engineer practitioner.

SO HELP ME GOD.

## PLEDGE OF PROFESSIONAL

I am an ELECTRONICS ENGINEER, In my profession, I take deep pride, but without vainglory; to it, I owe solemn obligations that I am eager to faithfully fulfill.

As a Professional, I will participate in none but honest and legal enterprises. To him who has engaged my services, as employer or client, I will give the utmost of performance and fidelity. I dedicate myself to the analysis, synthesis and dissemination of engineering knowledge and practice.

Zealous of high repute of my calling, I will strive to protect the interest and the good name of any engineer that I know to be deserving, but I will not shrink should duty dictate from disclosing the truth regarding anyone who was shown himself unworthy of the profession.

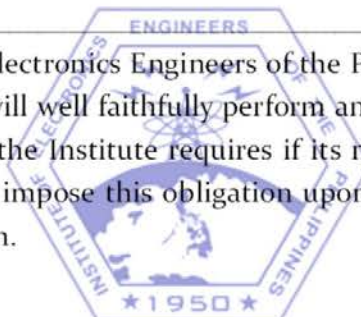

To my colleagues, I pledge in the same full measure I ask of them integrity, fair dealings and devotion to the standards and the dignity of the engineering profession that carries with it the obligation to serve humanity with the greatest dedication.

SO HELP ME GOD.

## OATH OF MEMBERSHIP

I, \_\_\_\_\_, having qualified as member, of the Institute of Electronics Engineers of the Philippines, Inc. (IECEP), hereby solemnly pledge and swear that I will well faithfully perform and discharge to the best of my ability the duties and obligations that the Institute requires if its members; that I will support the By-laws of the Institute; and that I impose this obligation upon myself voluntarily, without mental reservation or purpose of evasion.

SO HELP ME GOD.

Experience the Heart of the Filipino ...

Mabuhay!
